

What is E status?

E Status is a secure, web based file status query and look-up tool for clients. Clients are assigned log-in capabilities to the credentials and /or provider enrollment file data base to immediately monitor the status of a practitioner’s file. The data is a direct feed from Cenevia’s Credentialing Database.

1) How do I log on? E Status Link:

<https://credentialing.ccnva.com/estatus>

Log On Screen:

If you are unable to log on please contact Chris Stamnas, Director, Credentialing and Provider Enrollment @ 804-237-7686 ext 1214 or (cell) -804-339-4100 or by email at Cstamnas@ccnva.com

2) Once you have logged on, the next screen you will see is below.

Please note- your access will only allow one center at a time to be displayed. If you are responsible for multiple centers (health centers with a different tax id), a username and password will have to be established for each entity. In this situation please contact Chris Stamnas to coordinate multiple passwords.

The column names in white and underlined (Provider Name, Degree and Credentialing Status) can be double clicked to allow quick sorting. Below is an Alpha sort by practitioner

Provider List Setup Entities User Accounts Image Security

E-STATUS TEST RECORD
Provider Credentialing Status

Column Names

Provider Name

Degree

Credentialing Status

STAMNAS , CHRIS

MD

ACTIVE

☐ Include Archived Providers

Copyright Vistar © 2010 - 2012

Same data- however by double clicking on the degree column header –degree is automatically sorted by Alpha.

Welcome, cstamnas

Provider Enrollment Information.
Exhibits insurance name (Payor Name), type of plan (Payor Type), status, provider number and effective date.

E Status –Navigational Overview

As you can see these screens shot reflect office information, PSV activity, as well as notes related to the particular activity. This information is pulled off of t he Credentialing or Recredentialing Application. Remember – this data is a direct and secure feed from our Credentialing Database.

In addition a more unique and helpful feature is the ability for centers to have access to scans. The screen shot below reflects a sample list of scans for a practitioner.

RELEASE/CONSENT FOR INFO	

Each one of these images is also a hyper link and you can click on the image you want and it will pop up on your PC.

Therefore if you need a copy of a file you can access E status- see locate your practitioner and download whatever information you need. While this may reduce the need for email communication to Cenevia it is not a replacement. If you have any questions or concerns please contact us and we will help you immediately.

Please note that if you have any trouble viewing PDF’s or Tiff’s you may need assistance from your local IT person.

The last screen shot allows you to see the payor history and or progress of provider enrollment submissions. In addition, it reflects CAQH password- if Cenevia has it on hand.

If you have only been granted Provider Enrollment access to E status, this will be the only data you can see within E status.
